We all love stories. Many of us love to tell them, and even dream of making a living from it too. But what is a story? Hundreds of books about screenwriting and storytelling have been written, but none of them ask 'Why?' *Why* do we tell stories? And why do all stories function in an eerily similar way?

John Yorke has been telling stories almost his entire adult life, and the more he has done it, the more he has asked himself *why?* Every great thinker or writer has their theories: Aristotle, David Hare, Lajos Egri, Robert McKee, Gustav Freytag, David Mamet, Christopher Booker, Charlie Kaufman, William Goldman and Aaron Sorkin - all have offered insightful and illuminating answers. Here, John Yorke draws

on these figures and more as he takes us on a historical, philosophical, scientific and psychological journey to the heart of all storytelling.

What he reveals is that there truly is a unifying shape to narrative - one that echoes the great fairytale journey into the woods, and one, like any great art, that comes from deep within. Much more than a 'how to write' book, *Into the Woods* is an exploration of this fundamental structure underneath all narrative forms, from film and television to theatre and novel-writing. With astonishing detail and wisdom, John Yorke explains to us a phenomenon that, whether it is as a simple fable, or a big-budget 3D blockbuster, most of us experience almost every day of our lives.
